

AUREA 7011 V3

The **AUREA 7011 V3** is the second system of our ABS Surrounds, now even more powerful with the new 10" speaker.

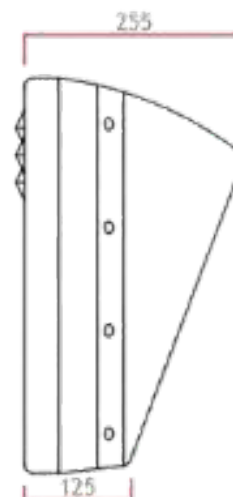

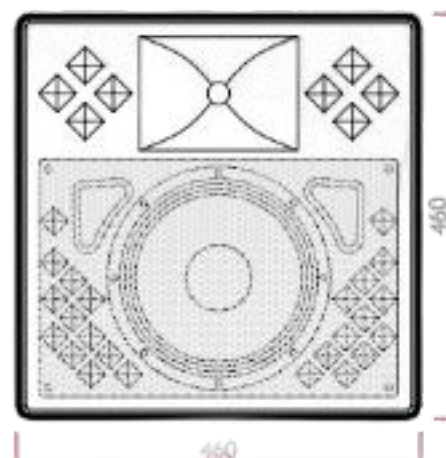

ABS Surrounds are very easy to install on walls or ceilings due to their extreme lightness.

The system is delivered with a standard fixed support, but it is also ready to work with our pan/tilt wall/ceiling support **AUREA 7712 SUPPORT** for immersive systems.

Despite the ABS cabinet the system is improved with an internal and special treatment to achieve a very low frequency of resonance.

This enables the technician to EQ in a wider range of frequencies. This allows equalization over a wider range of frequencies.

This system has a **polyurea finish**, but the grill could be painted any colour following the customer needs.

SPECIFICATIONS

BASS: 1 x 10" speaker with 1.5" voice coil

TREBLE: 1 x 1" driver with 1" voice coil

HORN: 100° x 60° constant directivity horn.

POWER: 280W AES/560W Prg. 8 ohm.
Nominal Impedance 8 ohm.

SENSITIVITY & SPL: 99.15dB/1W/1m. Free field
SPL 125.5dB

FREQUENCY RESPONSE: (-10dB) 60Hz. to 18.000Hz.

SIZE: 46 x 46 x 25.5 (12.5) cm.

WEIGHT: Net 10 Kg
