

AUREA 8000 LF

The **AUREA 8000 LF** module is equipped with a 15-inch speaker featuring a 3-inch voice coil, meticulously designed to deliver deep, impactful bass.

With a sensitivity of 101 dB, this module ensures efficient sound output, making it an excellent choice for applications requiring clarity and power in the low-frequency spectrum.

The module achieves a maximum **SPL of 128.5 dB**, ensuring dynamic and immersive sound reproduction that enhances any audio setup.

Rated at **350 W AES (700 W Program)** and operating with an 8-ohm impedance, the **AUREA 8000 LF** guarantees consistent and reliable performance, even during demanding use.

Its frequency response extends down to an impressive 39 Hz, producing well defined bass tones that add depth and richness to the overall audio experience.

With its robust construction and precise engineering, the **AUREA 8000 LF** is an essential component for professional audio setups, offering unmatched performance in the low-frequency range.

Whether for cinema, live sound, or any demanding audio environment, it sets a high standard for low-frequency sound reproduction.

SPECIFICATIONS

BASS:	1 x 15" speaker with 3" voice coil
POWER:	350W AES-700W Prg Nominal Impedance 8 ohm
SENSITIVITY & SPL:	101 dB 1W/1m Max SPL 128,5 dB Continuous Leq
SIZE:	100 x 68 x 27 cm
WEIGHT:	Net 37 Kg
