

This system has a polyurea finish.

3-year guarantee

AUREA 8112

This is a high-power surround system to preserve the **“Timbre”** of the complete sound system with 8000 series behind the screen.

As a high-power surround unit, the **AUREA 8112** is also ready for the **“Proscenium or Front Most”** position at Immersive Cinema Sound installations, or to be located on walls in cinemas with a big wall-to-wall distance and the center of the cinema.

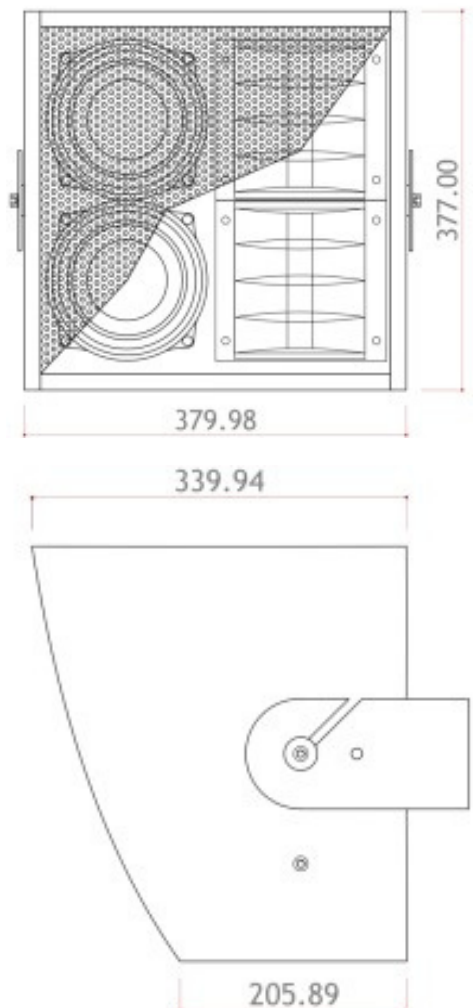

The channel surround will be perfectly listened at distances up to 12m.

This **AUREA 8112** is a passive system, delivers good medium and treble frequencies and includes an internal crossover processor.

The wall support is a strong Pan/tilt device.

To have superb results, we recommend to use this unit combined with our surrounds subwoofers, **AUREA 7517 V2 SUB**.

This system has a polyurea finish.
