

AUREA ARQ. 05 COAXIAL

Our Architectural series is meant for forums, cinema foyers, etc.

But many customers find the **AUREA ARQ.05 COAXIAL** to be good looking, so it is becoming more of a nice surround used at medium/small cinemas than for any another application.

The wall support, a U bracket, is the standard supporting system.

It is also ready to receive the standard Midimount and be hanged vertically.

So, depending on the styling of the cinema decoration, our **AUREA ARQ.05 COAXIAL** can work in a horizontal or vertical position.

This system has a **polyurea finish**.
